What our clients say

CW Solutions

"We recently purchased an interactive whiteboard from rapid technologies , and the entire experience was outstanding. From the initial inquiry to delivery, their team provided excellent customer service, ensuring we selected the right product for our needs. The whiteboard itself is high-quality, user-friendly, and has significantly improved collaboration in our workplace. We highly recommend them for their professionalism, expertise, and top-tier products."

K Line Europe

"We are very satisfied with the service level we received and have already placed a second order to expand the use of the equipment recommended by Rapid Tech. Its nice to come across a professional company that has the clients best interests at their core."

Rexel

"Overall RAPID are a very good company to work with, they have come on board with Rexel and as a new Partner, they made us feel welcome as a customer, everything was clearly outlined with no surprise costs. The backup service after installation is outstanding. Nothing is an issue for them and they always come back within reasonable timescales of the work requested."
